NAME	Emilio José	SURNAME	Expósito Cordobés
DATE OF BIRTH	26/01/1981	CITY	Jaén
ID	77333723H	SEX	Male
MARITAL STATUS	Single	ADDRESS	Catalina Mir Real, Nº 3. Door 2 – Floor 0 A
CITY	Jaén	ZIP CODE	23009
TELEPHONE	+34 675827190		
EMAIL	e.exposito.cordobes@gmail.com		
DRIVING LICENCE	Spanish 'B' license and own car		

PERSONAL STATEMENT
I have long experience in software development, since the beginning of my career I have been working with Java, but in the last years, I have developed environments with Angular in frontend side and Java microservices for the backend side. I describe myself as a person with wide experience, willingness to learn and enthusiasm for new challenges, very adaptive to changes and to learn new technologies. I like to be always learning new languages and be up to date with new technologies. In my free time, I develop mobile applications and games for iOS and Android (some of them are in the app markets).

WORK EXPERIENCE
Senior Software Engineer - The Workshop Inventors of Play - Málaga November 2015 - Present
Company based in London and Málaga among other cities, provides market-leading software and consultancy services. www.theworkshop.com
Key Responsibilities and Achievements: - Work hand in hand with architects in order to solve problems and find technical solutions in new canvases and requirements of my team. - Develop frontend sites based on following stack: Angular 2+, Rxjs, Mobx and ngrx/store, coded in TypeScript. - Develop backend microservices based on Java 10+, Springboot 2, using Cassandra, MySQL and ElasticSearch as DBs, RabbitMQ and Kafka as asynchronous messaging brokers. - Deploy docker images (on premise and in google cloud) using Bamboo and ArgoCD as CI environments in Kubernetes configuring the deployments, services, ingresses, egresses... - Coordinate tasks and review code by other developers in order to reach the company

standard quality level.

- Maintain Services quality levels implementing unit testing (backend with junit 5 and frontend with jasmine), E2E, System, Visuals (with Selenium and Cypress), Integration, Component, Load and Contracts Tests (Spring Cloud Contracts).
- Monitoring services in Production Environment using Grafana (charts), Logs (Kibana), metrics (Prometheus) and alerts (Prometheus and Icinga).
- On call Support for the production services.
